PROJECTS

AI Finder

AI Finder is an impressive tool for finding and reviewing fun and interesting AI Tools available on the internet.

- You can find tools based on various categories
- Get detailed info on any AI you like
- Visit the AI website or application on the go
- You can bookmark any tool if you like. Don't worry, your bookmarks are safely stored in the MongoDB database.
- Just create your account and you are good to go..

Hospital Management System

Hospital Management System is a software developed to simplify hospital management

- Keep log of admitted and discharged patients as each information is stored in skillfully designed PostgreSQL database
- Manage staff members working in the hospital
- Doctors can assign medications, reports to the specific or multiple patients at a time
- Nurses govern rooms and can review patient status anytime
- Receptionists can admit or discharge patients. Also, they can generate patient treatment bill from the medication and treatment records

CERTIFICATIONS

- The Complete Web Development Bootcamp 2023
- Advanced CSS and SASS
- The Git & Github Bootcamp
